Career Objective

Final-Year Computer Science Engineering Student with foundational skills in Java, web technologies (HTML, CSS), and Data Structures and Algorithms. Possesses strong understanding of software development principles and practical experience in building scalable applications. Passionate about collaborative development, problem-solving, and continuous learning. Committed to delivering efficient software solutions and contributing to team success.

Education

K.S. Institute of Technology, Bangalore 2026
Bachelor of Engineering in Computer Science and Engineering

Sri Chaithanya PU College, Ballari 2021
Pre-University Course (Science Stream)
Percentage:93.16%

Holy Cross E M School, Ballari 2019
SSLC (Secondary School Leaving Certificate)
Percentage: 91.84%

Project Work

Cloud Based Malicious URL Detection System

- Built a web app using Python (Flask), HTML, and CSS to classify URLs as malicious or benign using a trained machine learning model.
- Handled dataset collection, cleaning, and preprocessing for supervised learning.
- Extracted features like URL length, symbol count, and suspicious patterns.
- Deployed the application on Render, enabling real-time URL predictions for public use.

Smart AI Based Invoice Extractor

- Built a system that automatically extracts data from invoices using OCR and the Gemini API.
- Used OCR to read text from PDF/image invoices and Gemini to accurately identify fields like date, vendor, amount, and line items.
- Generated spending insights and visual dashboards showing vendor trends and monthly expenses.
- Tech Stack: Python, Flask, Tesseract OCR, Gemini API, JavaScript, Chart.js.

Technical Skills

Programming skills: Java, Python (Basics).
Machine Learning & AI: Model training & evaluation, Google Colab, Libraries.
Tools & IDEs: VS Code, Eclipse, Google Colab.
Cloud Platforms: AWS, Microsoft Azure, Render
Core areas: OOPS, DBMS, Operating Systems, DSA.
Soft Skills: Communication, Decision making, team Collaboration.
Web Technologies: HTML, CSS, JavaScript, MongoDB, SQL.

Certificates

Cyber Security Bootcamp - The Ultimate Beginner's Course-Udemy
Complete Java Programming Boot Camp - Udemy
Generative Artificial Intelligence in Data Analytics- Simplilearn
